

# Better Diabetes Management with No-Cost Meters

Regular blood glucose testing is an essential part of successful diabetes management. The Diabetic Meter Program makes monitoring blood glucose levels easier by offering no-cost\* meters to eligible plan members.

## The Diabetic Meter Program

This value-added program is offered as part of your prescription benefit plan and provides eligible members with a blood glucose meter at no out-of-pocket cost. The meters are funded by Roche Diabetes Care Inc.<sup>®</sup>, the manufacturer of your prescription benefit plan's preferred glucose meters (Accu-Chek<sup>®</sup>).

## Eligibility

**To take advantage of this offer, members must:**

- Be enrolled in the prescription benefit plan
- Have diabetes
- Have a valid prescription for Accu-Chek blood glucose test strips. Members who don't already have a prescription can call for assistance in getting one from their doctor.

**Additional requirements or limitations may apply.**

Meters will be shipped to members within seven to 10 days of order.

## Diabetic Meter Program

For more information about offering the Diabetic Meter Program to your members, contact your CVS Health account representative.
